DETAILED ACTION

1. This supplemental action replaces prior office actions.

Response to Arguments

2. Applicant's arguments filed March 26, 2007 have been fully considered but they are not persuasive.

Applicant contends "native services". Remark, p. 8, para. 2. However, not all native services are disclosed in the Specification. The Specification lists only "ATM, IP, TDM, WDM, each in its own protocol and at its own bit rate" on p. 9. New matters arise from native services such as Fibre Channel, Ethernet, PDH and Frame-Relay. In the alternative, because the Specification discloses only ATM, IP, TDM and WDM in its own protocol and at its own bit rate, the Specification does not enable Fibre Channel, Ethernet, PDH and Frame-Relay in its own protocol and at its own bit rate. Therefore, the amendment for claims 1 and 5 do not put the claims in condition for allowance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. **Claims 1-3,5,8-12,14-25,27,29-31** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to

Art Unit: 2616

reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 1 now recites Fibre Channel, Ethernet, PDH and Frame-Relay which are not found anywhere in the disclosure as originality filed.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. **Claims 1-3,5,8-12,14-25,27,29-31** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

7. There is insufficient antecedent basis for this limitation in the claim.

Claim 1, lines 14 and 17, "the packets". Claim 1, lines 12-13, only recite "a packet".

Allowable Subject Matter

8. Claims 1 and 5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

9. Claims 2,3,8-12,14-25,27,29-31 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
